Here's to Let-the man with the grin. To those who are  
misled or misinformed let it be known that Lester is not that  
quiet, peaceful sort of chap that you would think him to be by  
glancing at his picture. Far from it, for Let is always out for  
a good time and is a boy with the boys.

As for co-eds, he doesn't let the species worry him, but  
prefers to enjoy the company of the "Janes" at Lubec and  
Southwest Harbor.

Beneath this cloak of gaiety there lives a serious man to  
whom we all wish success as he goes out into life.
